

AREA SALES AGENTS

The Company

Midtherm Engineering Ltd based in Dudley, West Midlands was initially formed in 1982 as an installation company for Midtherm Flue products. Since its conception the company has grown in size substantially and benefits from being one of Europe's largest manufacturer and installers of flue, chimney, kitchen ventilation, natural ventilation and lighting products.

The Products

We manufacture substantial and diverse products that are fully backed by a professional design and installation service to ensure complete continuity throughout the service provided. Our product portfolio includes Flue and Chimney Systems, Kitchen ventilation systems and the 'Windvent' natural ventilation, and 'Litepipe' natural lighting range.

The Persons

We seek dynamic and capable individuals who will already have relevant sales experience within the heating and ventilation sector. With an enthusiastic approach to selling systems from our updated product range, you will be self-motivated and naturally driven to sell.

Sales Areas

London, Southeast, Southwest, Northwest, North East and Scotland

Other areas if not listed above would be given consideration.

Interested persons should contact either **Mr Andrew Brown** or **Mr John Walsh** for an informal discussion using the contact number below.
